

# EXPOSÉ KM195

A Steinway grand piano from Klangmanufaktur unites the rich sound of decades-old wood with the technical precision of a newly built Steinway. Our grand pianos always have the original Steinway soundboard, which we carefully restore to a high level of responsiveness. At the same time, we replace the moving parts with new Steinway parts. We substitute materials such as piano lacquer or lead with environmentally friendly alternatives. The ability to revive instruments in our workshop, some of which are over 100 years old, makes our grand pianos role models for long product life cycles and resource protection. We work in accordance with the principles of the economy for the common good.

**Model:** Steinway B-211

**Serial number:** 492.376

**Built:** 1985 (in Hamburg)

**Coating:** black satin hardoil, inside of keylid and bottom side of top lid in black highgloss
